

COLLOIDAL SILVER

THE ANTIBIOTIC ALTERNATIVE FOR CHRONIC AILMENTS

Colloidal Silver is a pure all-natural substance consisting of sub-microscopic clusters of silver, held in suspension of pure ionized water by tiny electric charge placed on each particle.

Colloidal Silver is a powerful, natural antibiotic. It is most usable form of the most effective disease, germ, virus and fungal killers known. It has been found to be both a remedy and prevention for colds, flu, all infections and all fermentation due to any bacteria, fungus or virus, especially staph., and strep., which are often found in disease conditions. It has been reported to rapidly subdue inflammation and promote faster healing. It is the best all around germ-fighter we have. The body needs Colloidal Silver to fight disease-causing organisms and to aid healing.

Colloidal Silver is non-toxic, non-addictive and has no known side effects. The body develops no tolerance and one cannot overdose. Disease organisms can become resistant to regular antibiotics, and allow them to mutate resulting in super-infections. No matter whether its a virus, fungus or bacterium, while the Colloidal Silver is killing the germ pathogen, the time limit so short that the insidious pathogen doesn't have time to mutate. No germ has ever been able to mutate and prevent its own destruction by Colloidal Silver. They just cannot mutate into Silver-resistant forms. Therefore no tolerance to Colloidal Silver ever develops. Colloidal Silver cannot cause harm to liver, kidneys, organs or any part of the body. It is odorless, tasteless, non-stinging, contain no free radicals, it's harmless to human enzymes and has no reaction with other medications.

Silver has benefited mankind's health for thousands years. In ancient Greece and Rome, people used silver containers to keep liquids fresh. American settlers often put a silver dollar in milk to delay its spoiling. Around the turn the of the century, doctors prescribed silver nitrate for stomach ulcers and it has been a common practice to put a few drops of a silver solution in newborn babies' eyes to kill bacteria that causes blindness.

Note: It is not silver in dental fillings that are harmful but the *mercury*, which is deadly poison.

We get silver and all minerals in our bodies' trough the food we eat. This comes directly from organic soil. If we eat plants that have been grown on chemical fertilizers, as most plants are grown today, we do not get the quantity of vitamins and minerals which are available in organic grown food. Thus, deficiencies develop. As the tissues age, or if we cannot assimilate silver for some reason, we develop a silver deficiency and an impaired immune system that can lead to cancer and other diseases. Some suspect a silver deficiency is possibly one of the main reasons cancer exists and is increasing at such a rapid rate today. There is correlation between low silver levels and sickness. People who had low silver levels were frequently sick, had innumerable colds, flu, fevers and many other sicknesses. Silver deficiency is the one of the reason for the

improper functioning of the immune system. Colloidal Silver is the perfect non-toxic medicine to use for its wide spectrum antibiotic effect.

Colloidal Silver has been successfully tested at the UCLA MEDICAL LABS where it killed every virus on which it was tested. It kills also HIV virus among the other viruses that were tested in the lab.

Microorganisms depend on a specific enzyme to breathe. Colloidal Silver is a catalyst that disables these enzymes, and as a result they die. Colloidal Silver is known to be successful against more than 650 illness-causing microorganisms (bacteria, virus and fungi).

Colloidal Silver can be taken over long periods of time, because the body does not develop a tolerance to it. Medical tests indicate no known adverse effects from the use of properly prepared Colloidal Silver. The presence of Colloidal Silver near a fungus, virus, bacterium or other single celled pathogen disables its oxygen-metabolism enzyme, its chemical lung. Within a few minutes, the pathogen suffocates and dies, and is cleared out of the body by the immune, lymphatic and elimination systems. Unlike pharmaceutical antibiotics, which are destroying beneficial enzymes, Colloidal Silver leaves the tissue-cell enzymes intact, as they are radically different from the enzymes of primitive single-celled life. Thus Colloidal Silver is absolutely safe for humans, animals, plants and all multi-celled living matter. A few people may feel achy and sluggish on the 3rd or 4th day after they begin daily Colloidal Silver. This is called a healing crisis. Drink lots of extra water and the symptoms will lesson rapidly. Tests prove, due to the high absorption of silver in the small intestine, the friendly bacteria in the large intestine are not affected. All bacteria, viral and fungal organisms are killed within 6 minutes of contact. No disease-causing organism can live in the presence of simple silver. The following is a partial list of the more than 650 diseases that Colloidal Silver has been successfully controlled and used against.

ACNE	CANCER	ECZEMA
ARTHRITIS	CANDIDA	FIBROSITIS
ATHLETE'S	CANINE	GASTRITIS
FOOT	PARVOVIRUS	BLOOD PARASITES
BLADDER	CONJUNCTIVITIS	BOILS
INFLAMMATION	DERMATITIS	GONORRHEAL HERPES
BLOOD POISONING	DIABETES	IMPETIGO
BURNS OF ALL TYPES	DYSENTERY	KERATITIS
CHRONIC FATIGUE	COLITIS	VIRAL AND FUNGAL
SYNDROME (CFS)	TUBERCULOSIS	INFECTIONS
LEPROSY	PLUERISY	RINGWORM
LUPUS	PNEUMONIA	RHEUMATISM
PYMPHAGITIS	PROSTATE	RHIRITIS
MALARIA	PSORIASIS	ROSACEA
MENINGITIS	PRURITIS ANI	SCARLET FEWER
NEURASTHENIA	FURULENT	SEBORRHEA
SEPTICEMIA	OPHTHALMIA	STREP VIRUS
SHINGLES	SYPHILIS	WARTS (ALL FORMS)

SKIN CANCER
STAPH INFECTION
HERPES VIRUS
STOMACH ULCERS

TONSILLITIS
TOXEMIA
TRACHOMA
TRENCH FOOT

WHOOPIING COUGH
YEAST INFECTION
AND
MANY OTHERS

Other Uses of Colloidal Silver

Research states that colloidal silver successfully has been used for: Acid Reflux [Caused By Intestinal Candida], Allergies, Bad Breath, Bladder Infections [Cystitis], Bleeding Gums, Severe Burns, Blood Parasites, Canker Sores, Colds, Conjunctivitis, Cornea Injury, Dandruff, Diarrhea, Digestive Aid, Ear Infections, Eczema, Enlarged Spleen, Entamoeba, Enteritis, Fibrositis, Flu, Gastritis, Gingivitis, Gonorrhoea, Gum Recession, H Pylori [Helicobacter Pylori], Halitosis, Hay Fever, Hemorrhoids, Impetigo, Keratitis, Lymphagitis, Meniere's Disease, Moles, Natural Decongestant, Ophthalmology, Psoriasis, Rheumatoid Arthritis, Ringworm, Skin Rashes, Sinusitis, Sore Throat, Tonsillitis, Tooth Decay, Ulcers, Vincents Angina, Warts, All Infections [Bacterial, Viral, Fungal, Parasitic and Yeast]

Dosage: Recommended daily amount (RDA), one half a teaspoon per day. Use 1/4 teaspoon for children. Put your Colloidal Silver in a small amount of water. Colds, flues and other infections should clear within 3 – 4 days. If you are over 175 pounds or have a difficult infection, you can increase the dose to 1 teaspoon a day. Do not increase dose beyond one teaspoon per day. Remember that it takes 3 – 4 days to gain the full benefit of Colloidal Silver. For optimum benefit, increase your fluid intake of clear water or watered down fruit juice to 4 – 6 large glasses per day.

Extremely toxic persons must proceed with caution as a “healing crisis may occur”. If you have never taken any cleansing herbs or modified your diet, then you must understand that this medicine will stimulate your body to cleanse the accumulated poisons stored in it. It will also kill various blood parasites, etc., and this can put an added strain on your body to eliminate these toxins. You must not allow yourself to get constipated and you must drink plenty of fluids.

Make sure you have at least two bowel movements per day. Do not eat large meat meals and keep the dairy and cheese consumption very low when you begin taking this product. The mere presence of Colloidal Silver near a virus, fungus or bacteria, or any single-celled disease-causing pathogen will immediately cripple its oxygen-metabolizing-enzyme, or chemical lung. It suffocates and dies in a few minutes and is cleared out of the body by the immune, lymphatic and eliminatory systems. All other antibiotics kill a variety of enzymes throughout the body, and kill off much of the good bacteria in the intestinal tract, leaving it vulnerable to infection and other health associated problems. Colloidal Silver leaves the enzymes of tissue-type cells totally unaffected. As mentioned earlier the enzymes of human tissue-cells are particularly different from the enzymes of single-celled life. Colloidal Silver actually promotes healing with less scar tissue. No other antibiotic will do that.

Colloidal Silver kills all types of virus, no matter how it mutates. No other single antibiotic worked against all types of bacteria. It works against all kinds of bacteria simultaneously, and even kills antibiotic-resistant strains and fungal infections. It accelerates the healing by over 50%.

The concentration of Colloidal Silver is measured in parts per million (PPM). A standard concentration is about 500 PPM. Much Colloidal Silver has come on the market with a concentration of 5 PPM. These products are very low in potency and have failed to kill bacteria in tests. Long-term storage of Colloidal Silver should be in glass. There has never been any drug interaction of any kind reported with Colloidal Silver. Silver has been used medicinally for several thousand years, with no record of interaction with any other medication. It removes any possibility of causing even the tiniest of problems. It is like having a second immune system, for the majority of people a half-teaspoon daily will act as a preventative. It has another great benefit. Rejuvenation and even inactive dead tissue could be replaced, by administering of Colloidal Silver.

A number of diseases like cholera, dysentery or any other disease where the pathogen resides mainly in the large intestine, and fatal mostly due to the dehydration resulting from severe and prolonged diarrhea and vomiting. Colloidal Silver can kill the pathogens that are causing this problem. Colloidal Silver (used as recommended) will not reach the lower intestine, however, if one drinks 1 teaspoon of Colloidal Silver in 16 oz of pure water, on an empty stomach each day for about one week, it will reach the large intestine and take care of the problem. Alternatively using Colloidal Silver in an enema is very beneficial.

Severe burn cases are far more survivable if Colloidal Silver is administered liberally, both orally and topically. Particular types of virus cause AIDS, and cancer. All viruses upon invading a body tissue cell will take over its reproductive chemical factory and force the cell to replicate the virus instead. A part of the response of the cell is to revert to a more primitive enzyme-chemical-lung for its oxygen metabolism. At this stage it can successfully be eliminated by Colloidal Silver. Fungus immediately permanently disabled by the presence of Colloidal Silver. Like other bacteria, Fungus is killed within six minutes or less upon contact. Bacteria are single-celled creatures and they all use the same enzyme-chemical-lung for their oxygen metabolism. Like the other illnesses mentioned the Colloidal Silver does absolutely no harm to the body's tissue-cells, as they use a different enzyme for their oxygen metabolism. Some diseases are caused by tiny worm-like animals, which burrow through a particular organ, or in some cases throughout the whole body. In every case they reproduce by laying eggs. These eggs have the same characteristic type of oxygen metabolizing enzyme as the single-celled bacterium. The eggs cannot hatch if there is sufficient Colloidal Silver in the surrounding tissues. They are killed immediately and eliminated by the body. Many people are the victims of Chronic Fatigue Syndrome. There can be many reasons for this condition arising, one being the presence of a general low-grade body infection. Taking Colloidal Silver for this condition eliminates the infection, and allows the body to be restored to its normal level of stamina and energy. Drink about 8 oz distilled water with a quarter teaspoon of Colloidal Silver in a beverage with each meal, to kill all germs that

naturally occur in food, causing fermentation of starches and sugars, putrefaction of proteins, loss of vitamins, amino acids and rancidification of fats.

Colloidal Silver is the best water purifier. Bad water, if it doesn't contain toxic chemicals, but only germ contaminants, can be made drinkable by adding 1 – 3 tablespoons (depending on concentration of contamination) of Colloidal Silver per gallon. To purify water from any germs and make it drinkable do the following: add Colloidal Silver (1 – 3 tablespoons per gallon), shake, wait 6 minutes then shake again, wait another 6 minutes, and its ready. To guard against such water-borne diseases as dysentery, more than half the world's airlines now use Silver water filters (British Airways, Swiss Air, Scandinavian Airlines and etc.). After testing 23 different methods of purifying water, NASA selected a Silver system for the Space Shuttle.

A dramatic demonstration recently took place in Nebraska, fifty gallons of raw sewage was pumped into a pool without any disinfectant. A standard measure of contamination is the amount of E. Coli and organism found in the Human intestinal tract. The count soared to 7000 E. Coli cells per milliliter of water, then Colloidal Silver was added. Within three hours it was completely free of E. Coli and all other single-celled bacteria. Japanese companies have announced five new technologies, which are use Silver to purify the air of chemical toxins.

USAGE:

AS A PREVENTATIVE: If you are going to be in a high-risk area, you can take the Colloidal Silver a few days prior to going. Continue taking it while there is a risk of infection.

COLONICS/DOUCHES: For fungal and other infections, add 2 teaspoons to one quart of tepid water. Administer nightly. For severe infections use it twice per day.

DIGESTIVE AID: For digestive problems, bloated belly, indigestion, flatulence, diarrhea/constipation, etc., add one teaspoon to one quart of water and drink during the day. This is important, because you need to get the Colloidal Silver into the whole system and the water will be the carrier. As the symptoms diminish reduce the Colloidal Silver to half teaspoon per quart of water.

EXTERNALLY: Apply directly to any cut and open sore. For warts, cuts and abrasions or any open sore put a few drops onto a small Band-Aid. Dab directly or spray onto skin cancer, eczema, itchy area, acne, mosquito bites or any skin problem. For improved results, apply to the dressing, making sure that the skin is in contact with the Colloidal Silver.

ATOMIZER/INHALER: Eight-ounce atomizer can be used directly on sore throats. It could be inhaled through the nose, and taken into the lungs to fight infections.

TO PURIFY WATER: See above.

FOR YOUR PLANTS: For all bacterial, fungal and viral attacks on plants, simply spray diluted silver and adds to soil water. Mix one tablespoon per quart.

FOR ANIMALS: Use as in humans. Mix in the water when necessary. Just put it in your pet's food or water. Use on skin for external infections.
